

Sample Submission Procedure:

1. **Contact** Microarray Facility when planning GeneChip experiment to make sure the availability of the number of chips will be used. It usually takes one to two weeks to order and receive the chips.
2. Schedule an appointment to bring samples to the facility. Completed **Sample Submission Form** is required at the time of sample submission.
3. If total RNA is provided to the facility, the minimum amount of total RNA is 2ug in a concentration no less than 0.2ug/ul in DEPC-H₂O.
